### Maximum Pressure Relief

The seat cushion uses CareFlex WaterCell Technology® and Vapour Permeable (VP) upholstery, which work synergistically to provide continuous pressure relief.

### Full Width, Independently Elevating, Channel Leg Rest

The leg rest smoothly follows the biomechanical movement of the lower legs as they pivot at the knee joint, giving uniform support to the lower legs and knee whilst preventing drag to the skin.

### Integral, stowable angle adjustable footplate

Stability and sensory feedback

### 4 Fully Braked Castors

The castors have sealed bearing hubs for enhanced durability and smoother manoeuvrability. Each castor has a full brake to stop rolling.

# SmartSeatPro™ Accessories

The SmartSeatPro can be tailored to the specific needs of any individual through our range of advanced accessories.
